DETAILED ACTION

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Fisher et al (U. S. Patent Application Publication US 2003/0054160 A1) in view of Fukutani et al (U. S. Patent Application Publication US 2004/0234778 A1).

Fisher et al disclose a glass laminate comprising: glass plate/interlayer/glass plate (Paragraph [0041]). The interlayer comprises: polyvinyl butyral, plasticizer, coloring agent, LaB₆, ITO and/or ATO (Paragraphs [0022] to [0040]). Fisher et al also disclose dispersing LaB₆, ITO and/or ATO in plasticizer Examples 2, 3 and 6). Fisher et al fail to disclose use of claimed phosphoric acid ester as dispersion stabilizer.

Fukatani et al disclose a dispersion of ITO and/or ATO in plasticizer using phosphate ester compound as dispersion stabilizer from 0.0005 to 5.0 wt. parts per 100 wt. polyvinyl acetal, such as polyvinyl butyral for reducing haze due to agglomerates of ITO and/or ATO (Paragraphs [0096], [0097] and [0190]). Fukutani et al disclose claimed phosphoric acid ester compound (Paragraph [0066]).

Therefore it would have been obvious to a person of ordinary skill in the art at the time of this invention made to utilize disclosure of Fukutani et al in the invention of

Fisher et al to disperse LaB₆, ITO and/or ATO in a plasticizer containing phosphoric acid ester compound as dispersion stabilizer to prevent haze.

No claims are allowed.

3. Receipt of Information Disclosure Statements filed June 26, 2006 and April 21, 2009 is acknowledged and all recited documents have been made of record. Documents AB and AL recite on PTO 1449 dated June 26, 2006 have been crossed-out to prevent duplicate recitation on a patent issued from this application. These documents, AD and BC respectively, are recited on PTO 1449 dated April 21, 2009.
